

# neue räume 26

PRESS RELEASE June 2026

**SAVE THE DATE:** After two years, the international interior design exhibition “neue räume” will take place in September for the 13th time since 2001. Over 90 exhibitors from 10 countries will gather at the former ABB Hall in Zurich’s Oerlikon district to showcase home trends, new products and design pieces. Inspiring special exhibitions and exciting events offer further attractions for visitors interested in design.

Current themes, inviting living spaces and an inspiring supporting programme: from 24 to 27 September 2026, the biennial design fair “neue räume” – now firmly established as a fixture on the calendar – will transform the Zurich ABB Hall into a meeting place and trendsetting platform across some 7,000 m<sup>2</sup>. Now in its thirteenth edition, “neue räume” will once again bring together over 90 national and international exhibitors alongside stimulating special exhibitions, offering an exciting four-day programme centred on interior design and design in general. This year’s line-up includes manufacturers such as ClassiCon, Horgenglarus, the long-established Swiss firm Lehni, Carl Hansen, V-ZUG, Tecta, String Furniture, USM, Thut Möbel and many more.

Beyond Switzerland’s borders, the design exhibition is regarded as an important showcase and a unique meeting place for the furniture industry and design enthusiasts. In addition to numerous new products, the fair traditionally presents current and upcoming interior design trends, as well as innovative and spectacular new developments, in a variety of carefully curated special exhibitions – providing inspiration for private individuals and industry professionals alike.

## Swiss Design

The Swiss women’s magazine Annabelle, in collaboration with “neue räume”, is organising a prize draw for Swiss design furniture. Under the theme “100 Years of Swiss Design”, selected pieces of furniture from 1926 to 2026 will be on display – a selection from the Schweizer Möbellexikon, the fourth edition of which was published in 2024.

Other special exhibitions include the presentation “Eileen Gray and her colours” by Classicon, displays by two universities of applied sciences, and an exhibition by Mobiglias featuring new wooden collections from Graubünden. The magazine “Das Ideale Heim” presents the winners of the 2026 Swiss Architecture Awards. Also of interest are the contributions from young labels such as Isabel Bürgin and Georg Gisel. The Hochparterre bookshop is presenting and selling the new book “Swiss Brutalism”.

The Association of Swiss Interior Architects VSI presents the “Swiss Interior Architecture Archive”, launched in 2021, which preserves the estates of outstanding Swiss interior architects of the 20th and 21st centuries with a view to preserving, researching and promoting their work.

A new and recent development is the collaboration between "neue räume" and the well-known platform "Stylepark", the innovative magazine for architecture and design.

Once again this year, the Zurich-based company Einzigart-Selected Design is selling carefully selected items in the design shop.

All in all, September 2026 will once again bring a diverse range of topics relating to design and interior trends to Zurich, making them accessible to a wide audience.

For another year, "neue räume" is a partner of Zurich Design Weeks, which will take place from 17 to 27 September 2026. This annual design event is dedicated to the themes OUT OF THE BOX / OFFICE / CURIOSITY / THE BLUE and brings together not only "neue räume" but also the Museum für Gestaltung Zürich to create a unique design event in Zurich. Original productions by Zurich Design Weeks complement the programme of the two-week event.

**On Tuesday 23 June at 7.00 pm, a talk on Swiss design will take place at Wohnbedarf Zurich, Talstrasse 11.** The panellists will include Stefan Zwicky, architect and founder of "neue räume", Aurel Aebi from Atelier Oi, and designer Martin Schenk. Moderator: Judith Raeber.
